HOME & LIVING

# neem

The grass rustles in the breeze. Sheep graze on the mountain slope. The morning sun casts a shadow beyond the tree. All is quiet and calm. Neem lives and breathes this air. It respects what is natural, what is handwoven and hand created. Its collection for the Home draws on wool and cotton that is hand spun and woven: its colors favour the natural tones of earth, sand and sea: it adds details worked by hand that spell the uniqueness of its brand. Neem by Shades of India is a way of living.
